About Me

I am a third-year undergraduate student pursuing a degree in Artificial Intelligence and Data Science. With a strong foundation in backend systems, algorithms, and data structures, I have developed a keen interest in full-stack development. My active involvement in competitive programming has consistently improved my analytical thinking and problem-solving abilities. Beyond academics, I contribute to various extracurricular initiatives, gaining hands-on experience in technical leadership and collaborative problem solving.

Education

B.E. in Artificial Intelligence and Data Science, PICT, Pune 2023 – 2027

Current CGPA: 9.52 (Sem I: 9.32, Sem II: 9.95, Sem III: 9.73, Sem IV: 9.09)

HSC (Science), Harikisan Maloo International School, Amravati 2022 – 2023

Score: 82.17%

Projects

AI-Based Travel Planner

[AI-Trip-Planner](#) 

- Deployed an AI-powered travel itinerary generation platform leveraging **batch-based prompt engineering** to produce multi-day, activity-rich travel plans.
- Integrated the **Google Gemini API** for intelligent content generation, automatically segmenting recommendations into destinations, routes, accommodations, and activities for improved user clarity.
- Implemented secure, session-based authentication using **Clerk** and **Convex**, ensuring access control and persistent user sessions in a **fully serverless backend architecture**.
- **Tech Stack:** Next.js, JavaScript, Google Gemini API, Clerk, Convex

Monsoon Ecommerce Platform

[Monsoon-Ecommerce](#) 

- Architected and developed a **production grade ecommerce platform** supporting complete shopping workflows, including product browsing, cart management, checkout, and order processing.
- Created a **responsive product catalog** with stock status control, optimized images using **Cloudinary**, and integrated **Razorpay** for seamless payment processing.
- Built a **feature-rich admin dashboard** for managing users, inventory, and orders, with real-time order editing, detailed payment tracking (paid/remaining), and live stock updates.
- Enhanced **MongoDB performance** using indexed queries and optimized schema design, resulting in faster page loads under high user traffic.
- **Tech Stack:** Node.js, Express.js, MongoDB, EJS, JavaScript, Bootstrap, Razorpay

Technical Skills

Proficient in: C++, Data Structures and Algorithms, Node.js, Express.js

Experienced with: MongoDB, SQL, Gemini API, GitHub, REST APIs, JavaScript, React, Next.js

Relevant Coursework: Database Management Systems, Object-Oriented Programming (OOP), Operating Systems

Coding Profiles

- **CodeChef** : **3-Star** - Achieved highest contest rating of **1652**.
- **Leetcode** : Solved more than **300** problems and achieved highest contest rating of **1493**.
- **Codeforces** : Achieved highest contest rating of **1102**.
